

The officers of the *Eugene*, Boston, Courier, *Cricket* No. 2, and *Pomeroys Wharf* Boat, continue their favors, for which they will please accept our thanks.

The young ladies of the M. E. Sunday School propose having a Fair and Oyster Supper, at the Academy, on Christmas eve. Admittance to Fair, free. By all means, go to the Fair.

Public Installation and Supper.

By reference to another column it will be seen that the Odd Fellows contemplate "having a time" on New Year's Evening. They are proverbial for getting up things of this kind in good style. And those who can spare a dollar for such purpose cannot find a more profitable place to invest. Whether you go to the supper or not, they will be glad to meet you at the installation, which comes off on the same evening.

Christmas Festival.

The ladies of the M. E. Sewing Circle of this place, are preparing for a supper to come off on Tuesday evening, 25th inst., (Christmas) at the M. E. Church. A general invitation is extended to the community. Admittance, 100 cents per ticket; 50 cts. Oysters, extra.

Tickets can be procured at H. H. Swallow's and C. E. Donnelly's, during the week, and at the door of the Church on the evening of the Supper.

The proceeds to be applied to the rent on Paragon.

Hayti.

Thayer & Elbridge, of Boston, have in press a "Guide to Hayti," by James Redpath, published under the auspices of President Garrison, which will embrace a History of that Country, its Constitution, unbridled, Essays on its Natural History, Mineral Wealth, People, Resources, Religion, Revenue, Commerce, Laws, &c. Also, all the Official Documents in relation to the great Emigration Scheme, which is now attracting so much attention from our colored classes, everywhere. No book has been published on Hayti in the United States for thirty years, nor in England for more than twelve years. A volume on Hayti, therefore, is much needed at this time. Two editions of the Guide will be published. Price, Fifty Cents for the "Emigrant's Edition," and One Dollar for the "Garrison Edition," including postage.

THE WAY IT BEGINS TO WORK.

The Shelbyville (Tenn.) *Expositor* says:

"Never at any time in the memory of the oldest inhabitants has so great a tide of emigration been witnessed as is daily rolling Westward through this town. They hail from Virginia, from North Carolina, from everywhere East, and are bound, some for Texas, some for Missouri, and some for Lord knows where. Our own county and State have sent large delegations to the Great West."

Well, this is but the legitimate fruits of the insane ravings of the Demagogues of those States. They have proclaimed that disaster and insecurity was to follow in the trail of Lincoln's election. Many of the people of the South, no doubt, believed these malicious lies and are acting as if they were true. Let this secession fanaticism continue, and the seceding States will be depopulated of all that class of free laborers which make up the strength and glory of a community. Whatever despotism may be established in the South, they will hardly succeed in compelling the laboring whites to remain. The above is but one of many similar notices with which Southern papers are beginning to be filled. The free West can stand it if the South can. Every such movement builds up the West while it inevitably weakens the South in a much greater ratio. When the free laborers of the South are thus driven from the land of their birth, leaving only the haughty master and his disaffected slaves, then will come upon them a worse disaster than the election of an honest man for President, which they are making the pretense for their treason.

Here is another from Texas, of the same tenor. After alluding to business embarrassments, it is declared:

"Wheat is \$2.00 per bushel, and corn brings \$1.50; no immigrants arriving to bring money into the country, and on the other hand, a general stampede northward, of Illinois soldiers, frightened at the ridiculous abolition excitement. We are losing daily hundreds of strong arms and sound men, who take with them capital of which our country stands in need. It will take years for Texas to recover from the shock of the recent excitement which has its parallel only in the annals of Salem witchcraft."

BOOK NOTICES.

Arthur's Home Magazine.

And this is truly home-like. The first two engravings are really beautiful in conception. Children are ever beautiful to us, and we have long fancied them under the especial protection of guardian angels—and "May," with hers, won us at once. Arthur's reading matter is always good. His stories for the young, like *October's* leaves, wear every hue of beauty, and place his name first on the list of writers for the young. Reader, if you are young people in your home, take *Arthur's Home Magazine* for 1861.

Peterson's Magazine.

The January number of this excellent periodical is before us, full of rich thoughts. The engravings are fine—especially "Colwebs"—for "there hangs a tale." The second engraving, "Caught in the Snow," reminds us of our own New England winters—where we traversed hill and valley, "beneath the falling, feathery snow," and saw the Spruce and Evergreen peeping out between the milk-white flakes, as green and fragrant, as in summer time. The fashion plates are excellent. "Peter-son" has proved to the Ladies, that

there can be fashions, which they may don, and still be American women. The stories are well written. "Frank Lee Benedict" has an admirable one, of "Barbara Sherborne, Spinster." The "Broken Life," by "Mrs. Ann S. Stoven," is to be continued through the entire year. The opening chapter is rich with her peculiar style—and we predict a longer list of subscribers to "Peter-son," for 1861.

THE COSMOPOLITAN ART JOURNAL.

The December number has been received. It is, as its name implies, a record of Art Literature, Biography, Art criticism, and Repository of Belles-lettres Literature. It comes to us laden with beauties and sunshine, and must find a place in every reading circle. Miss Prescott's "Desert Sands," in this number, is equal to her "Amber Gods," which appeared in the *Atlantic*, some months since. Her thrilling description of the desert journey, and the heart-paths of woman's love, remains with us long after the book is closed. The humorous poem of "Poor Wyckoff Jones," by "Mrs. Metta V. Victor," is fine, and is a warning, indeed, to those who would "do the same." The short poem by "Miss Phoebe Cary," "Wants and Blessings," touches our heart far more deeply than her sister Alice's longest story. The "Editorial Etchings" are worth the subscription price, which is three dollars per year. With this number, came the fine steel engraving, of "Falstaff Mustering His Recruits." Would not the "Bard of Avon" laugh to see his favorite Knight so steered to life? One can almost fancy he hears the words—"I would thou wert a man's tailor, that thou might'st mend him, and make him fit to go." We cannot say enough of this well-filled journal. The Association has our best wishes for its future success. All communications should be addressed to C. L. Derby, Actuary C. A. Association, 546 Broadway, New York. John G. Enos, of Middleport, is Agent for that place, and vicinity.

CLARK'S LIVER PILLS.

THE BEST PURGATIVE AND PURIFIER, BEING THE PUREST AND MOST EFFECTIVE REMEDY FOR BILIOUSNESS. D. CLARK, the inventor of these pills, is justly distinguished for his eminent abilities and scientific research. For decades, in an extensive practice, he has been most successful in bringing the bowels into a regular action, and in restoring the system to its normal state. He has a remedy for a remedial agent to act as an active purifier upon the human system. In this he has been eminently successful, as the numerous certificates from celebrated physicians show. They are extremely mild in their operation, at the same time powerful and effective in removing disease. They never give pain, as do most purgatives, but they in all cases they are more speedy in their relief than any pill now offered.

The proprietor is pleased to announce that he has the pleasure of supplying the trade to the following named places: A fresh supply just received and for sale by D. REED, POMEROY, WELDON & BERTON, Chester, BRANCH & PAYNE, Rutland, and D. JOHNSON, Tupper's Plains, J. SCHAFER, Minersville, and N. U. WALKER, Proprietor, Pittsburg, Pa., Sept. 31, 1860—27-30.

THE GREAT REMEDY.

A fresh supply just received, and for sale by D. REED, POMEROY, WELDON & BERTON, Chester, BRANCH & PAYNE, Rutland, and D. JOHNSON, Tupper's Plains, J. SCHAFER, Minersville, and N. U. WALKER, Proprietor, Pittsburg, Pa., Sept. 31, 1860—27-30.

To whom all orders must be addressed.

THE GREAT REMEDY. The humbug of Patent Medicines is well exploded, and all except those who make money out of their wares for their own pockets, are hearty glad of it. Of hundreds of various kinds of worthless trash thrown upon the world, by the capacity of unscrupulous quacks and individuals, it is difficult to glean that which is really entitled to merit from the hands of honest men. We refer to Williams' Sarsaparilla and Iodide of Potassium. We have seen it used by numerous persons in our midst, with the most happy results, and we can make instances, in which after everything else had been tried without avail, it performed a remarkable cure. We have no faith in Patent Medicines in general, but in this exception we make with pleasure, from the sense of justice to the proprietor, who has given to the world such an invaluable remedy for several of the worst diseases which flesh is heir to. We treat this medicine with respect, for it is really a good one, and will bring relief to many an unfortunate sufferer. NASHVILLE PAPER.

Sold by D. REED, POMEROY, WELDON & BERTON, Chester, BRANCH & PAYNE, Rutland, and D. JOHNSON, Tupper's Plains, (Nov. 23, 1860—46-28).
